

PUBLIC'S GOOD STANDS ABOVE RIGHTS OF FEW

W. B. Colver Gives Dissertation to Coffee Roasters on Duties of Citizenship.

Atlantic City, N. J., Nov. 14.—Organizations of groups of men for mutual benefit are proper and to be encouraged up to the point where such organizations interfere with the general welfare and public interests, William B. Colver of the federal trade commission, told the National Coffee Roasters' association meeting here today.

"Individual liberty is only to be enjoyed up to the point where it encroaches upon the liberty of others," the speaker said. "All rights yield to the one dominant right—that of the general welfare. Labor was encouraged to organize by trades and crafts in the common interests of the wage earner. As in the case of organized capital there can be no objection to the mere size of such combinations unless the general welfare, the public interest is threatened."

Pointing out that during the war each citizen stood ready to contribute his all to the common cause, Mr. Colver deprecated the present day drift toward civil war between employers and employees, and to guerrilla warfare between producers and consumers.

He concluded with an attack on the business methods of the "Big Five" meat packers, warning his audience that there were indications that some of the Chicago packers intended to include the coffee business in the long list of their subsidiary activities in the near future.

TAKE INTEREST IN THRIFT WEEK ALL OVER LAND

Treasury Department Announces Campaign for Saving to Be Started Jan. 17.

Washington, Nov. 14.—Efforts by the treasury department to start the country off in the new year on the program of thrift through the observance of national thrift week, beginning Jan. 17, are meeting with keen interest throughout the United States, treasury officials said today. An effort will be made during the drive to impress upon the people the importance of holding financial gains made through the purchase of thrift stamps and Liberty bonds during the war.

National thrift week program has tentatively arranged at present designated Saturday, Jan. 17, as National Thrift day; Sunday, Jan. 18, as Thrift Sunday; Monday, Jan. 19, National Life Insurance day; Tuesday, Jan. 20, Own Your Own Home day; Wednesday, Jan. 21, Make-Your-Will day; Thursday, Jan. 22, Thrift in Industry day; Friday, Jan. 23, Family Budget day, and Saturday, Jan. 24, as Pay Your Bills day.

The first woman pastor of any Southern Methodist church in Missouri is Miss Josie Smart, a Kansas City Bible Training school graduate, who has received official appointment as pastor of churches in the neighboring towns of Bragg City and Arbyrd.

In Greenland it is an accepted fact in social philosophy that a woman's "no" means "yes." The priest calls upon the young woman and pleads the cause of her lover, assuring her that he is a good man, that he catches many seals, etc. It is the custom for the woman to reject all proposals at first, but to yield an unwilling assent. If she remains obdurate, however, the priest mentions that it is a matter of no consequence, as there are numerous other young women who would be glad of the chance, which remark seldom fails to bring an acceptance of the marriage proposal.

BOOM COOLIDGE, ENEMY OF RADICALS, FOR VICE PRESIDENTIAL NOMINEE

Governor and Mrs. Calvin Coolidge.

Boston.—(Special)—As a sequel to his victory in one of the greatest handiworks ever known in this state, friends of Governor Calvin Coolidge, who defeated Richard H. Long, his Democratic opponent, by 125,000 votes in the recent election, are preparing to start for him a campaign for the Republican nomination for vice president of the United States.

The credit that is given the governor throughout the country because of his defiance of the radicals, all of whom fought tooth and nail to bring about his defeat, is not to be overlooked. His friends say he has become a national figure of no small proportions.

The point of interest in this connection is the exchange of telegrams between John King, a prominent Connecticut Republican, and Louis K. Liggett of Boston. Mr. King wired: "We have elected the next governor of Connecticut as mayor of Bridgeport by 2,000 majority."

Mr. Liggett immediately telegraphed back, saying, "We have elected the next president of the United States by more than 100,000."

It is felt, however, that boosting Mr. Coolidge for the presidency at once is going too far, owing to his lack of experience at Washington, though his record in his climb to the governorship in Massachusetts is brilliant.

deliciously the dinner you have just eaten, and to watch idly the shadowy groups at other tables, looking in the simplifying yellow candle light like charcoal drawings.

You realize then that Romyan Marie is not the least important artist in Greenwich Village. She is one of the most important when it comes to creating atmosphere and things to eat.

The lot of the young wife in India is in many respects an irksome one. In certain parts of the country it is a common custom that a young wife, living, as she does, in a joint family of 10 or 20 members, must never show her face to her husband's father, uncles, or older brothers, or talk with them.

Some of the nations have odd legends as to the origin of women. The Japanese believe that she grew on a tree; the Laplanders that she was once a rabbit; the Persians that she fell from the heavens, and the Australian natives that she was once a toad.

The small room is furnished with a few bare wooden tables and benches, and dimly lighted by candles. There are samples of Rumanian crafts hanging on the walls. Marie herself, flapping in and out in straw slippers and a sort of nondescript costume, takes your order, cooks your food, and serves it. It is a place to go if you like long, talky meals, or a place to go if you want to feel out of the world and alone.

It is pleasant to linger over your coffee and cigarette in a dim corner at Romyan Marie's, to remember

RADICAL HAND SEEN BACK OF SCHOOL STRIKE

Chicago Principal Finds Evidence to Confirm His Suspicion of Propaganda.

Chicago, Nov. 14.—Bolsheviks and reds have found a fertile field for their propaganda among Chicago high school students and have recruited some faculty members, according to a charge made today by Dr. William J. Barthol, principal of Crane Technical high school and college, in discussing the suspension of two seniors of that institution. The youths, Alfred Struve, 20, son of a naturalized German, and Jacob Sachs, whose father is a naturalized Russian, refused to observe the minute of silence in honor of soldier dead on armistice day.

Acknowledge No Government. "The statements of both students convince me that they have been tutored by radical leaders," Dr. Barthol said. "They declared they acknowledged no government, would not stand for the national anthem and professed religious beliefs that are astounding." The attention of federal authorities has been called to the case.

CUT OUR WAGES IF YOU MUST BUT OUR MUSTACHE, NEVER

Paris.—(By the Associated Press.)—Waiters in seven or eight of the largest cafe on the Paris boulevards have been stirred to angry protest by orders to shave their mustaches or quit.

One of the bitterest grievances the waiters had when they went on strike last April was the edict of the employers to the effect that waiters must sacrifice their mustaches. The waiters triumphed and the employers agreed they should be permitted to adorn their faces as they pleased. Now an attempt to revive the ban on mustaches has roused their indignation.

"The waiters are sufficiently humiliated to have to earn their living by extending their hands to receive what often proves to be a ridiculous tip, without being forced to forego one of the privileges of manhood," said the secretary of the union. "Really, the ferocious employers know little about psychology. Should they maintain this iniquitous measure destined solely to give their staff a servile appearance toward the customer, they are picking out a poor time for it."

Whether through snobbishness or in the hope of appearing original, customers choose to make their faces as glabrous and depilated as that of the Americans or aim to copy the two comas on the upper lip of a well-known movie picture actor; that is their business. We must insist that the conventions entered into at the time of the strike be respected, that the mustache has always been in vogue in France and to suppress it is an indignity and diminishes the morale value and patriotism of the personnel of the cafes."

Some of the nations have odd legends as to the origin of women. The Japanese believe that she grew on a tree; the Laplanders that she was once a rabbit; the Persians that she fell from the heavens, and the Australian natives that she was once a toad.
